

CMSE 821 Honor Agreement

Since this final exam involves a significant portion of coding, it will be self-assigned and completed without a proctor.

In fairness to yourself and your classmates, the Spartan Honor code must be adhered to:

"As a Spartan, I will strive to uphold values of the highest ethical standard. I will practice honesty in my work, foster honesty in my peers, and take pride in knowing that honor is worth more than grades. I will carry these values beyond my time as a student at Michigan State University, continuing the endeavor to build personal integrity in all that I do."

In this take-home final exam, you are allowed to search information in books, journal articles, internet, or other sources without assistances from any human being except for the instructor. Copying answers or ideas, or receiving assistance from people other than the instructor will defeat the learning goals of this course and is therefore expressly *forbidden*.

I want you all to do well in this course and to fully learn this content. I will work fully with you to maintain the standards and high quality of this class. Regardless, I hope that you will commit to studying and completing the exam just as we would in class. I understand the pressure to cheat to improve your grade, but I hope you will rely on your own.

Pledge: The exam must contain the following signed (uploaded with the solution):

I have neither given nor received any unauthorized assistance on this assignment.
